The goods and services shown below are those we can provide to our customers. You may choose only the items you desire. However, any funeral arrangements you select will include a charge for our basic services and overhead. If legal or other requirements mean you must buy any items you did not specifically ask for, we will explain the reason in writing on the statement we provide describing the funeral goods and services you selected.

#### **Basic Services of the funeral director, staff, and overhead** \$495.00

This fee for our basic services will be added to the total cost of the funeral arrangements you select. This fee is already included in our charges for direct cremations, immediate burials, and forwarding or receiving remains. This fee includes the following:

- Personnel available 24 hours a day, 365 days a year to respond to initial call
- Arrangement Conference
- Coordinating service plans with cemetery, crematory, and/or other parties involved in the final disposition of the decedent
- Clerical assistance in the completion of various forms and permits associated with a funeral
- Overhead, including facility maintenance, equipment and inventory costs, insurance and administration expenses, and governmental compliance.
- Carbon offsets to ensure that all services are carbon neutral

Elemental believes in the transparency of pricing and simplicity of arranging services. The itemized prices are used to create all our service packages as well as services and merchandise that are available to your family in the arrangement process. Because we are in the profession of honoring lives lived, we aim to create customized services for your family, so if there is something you want that you don't see just ask.

## Minimum Services

Minimum services are a "Direct cremation" or an "Immediate burial". These are reduced cost services **without a ceremony**. The price ranges are the minimum services plus the cost of a casket selected from our casket price list.

If you want to arrange a direct cremation, you can use an alternative container. Alternative containers (alternative to a traditional cremation casket) encase the body and can be made of materials like fiberboard or composition material. The containers we provide are fiberboard.
